It's a pleasure for me to invite you to the 33<sup>rd</sup> meeting of the Working Group on Prolamin Analysis and Toxicity to be held in the historic city of Urbino, Italy, from 10 to 12 October 2019. I am very grateful to my colleague and friend Carlo Catassi for being the local host of the meeting. Special thanks also to Congredior for the organisation of the meeting. Last but not least I want to thank all sponsors that make this meeting possible. Except the executive part, the entire meeting is open for all invited speakers, guests and sponsors.

Please find enclosed the programme and information on location, hotel and travel arrangements, and please respond to the registration office in time using the registration form enclosed **no later than 29 June 2019**. Please note that registration is limited to 55 participants and that it is only valid after the registration fee has been paid before this registration deadline.

The Prolamin Working Group will take up discussions on analytical and clinical issues of gluten and coeliac disease as well as legal issues and the control of gluten-free food for people with gluten hypersensitivities.

We shall have a symposium on "Six years of research on ATI – Results and consequences" with three presentations from recognised experts in this field of research. As usual, there will be presentations on analytical and clinical aspects of coeliac disease as well as on legal aspects of gluten.

All speakers should provide an electronic manuscript of their presentation in Word-format\* (4 to 6 pages) to be included into the proceedings, which will be published as a full book. Many thanks to Dr. Schär for supporting the book!

Looking forward to meeting you all in Urbino!
